

Omnipliance Ultra + Micro

LIMITED TIME OFFER. EXPIRES DECEMBER 15, 2018

Get a new Omnipliance Ultra™ T310 for the datacenter, and receive a free Omnipliance Micro™ for a remote location!

When you're responsible for network performance, you need to see everything on the network, from geographically-distributed network traffic all the way to the cloud edge. By deploying Omnipliance Micro at remote locations, you not only get a more accurate and complete view of the network, but trouble spots can be identified and addressed before the end-user experience is adversely affected.

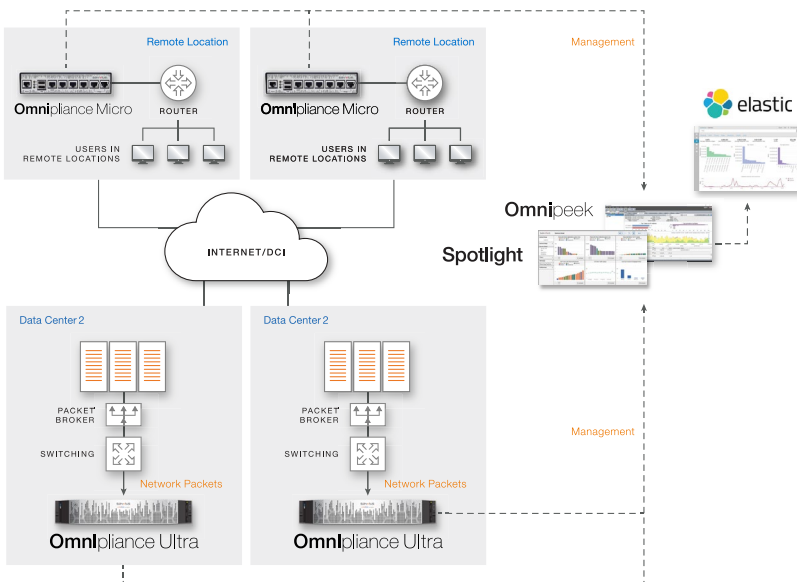

The Offer:

- Buy an Omnipliance Ultra T310 and receive, for free, an Omnipliance Micro*

* Omnipliance Micro: 16 GB of RAM, 1 TB of SSD storage, and additional support for VoIP troubleshooting

Contact your Savvius partner to schedule a demo and receive pricing: www.savvius.com/find-a-reseller

For more information about Omnipliance Micro, download: [Making Remote Network Visibility Affordable for the Distributed Enterprise](#)

TERMS

- Omnipliance Micro includes 1 year of maintenance
- Not valid with other promotions or discounts.
- Freight and duty not included
- Offer expires December 15, 2018
